DECLARATION OF FREDERICK J. ROGERS FILED
IN SUPPORT OF PETITION UNDER 37 C.F.R. § 1.47(a)Commissioner for Patents
Washington, DC 20231

Sir:

1. I am the Intellectual Property Coordinator and Technical Assets Manager for the Wheel Alignment Products Group of Snap-on Technologies, Inc., the assignee of the above-referenced patent application.
2. I tried to contact Mr. Steven W. Rogers during January 2003 regarding the execution of the formal documents for the above-referenced application, including the inventor's Declaration and Assignment. I asked the administrative assistant of Snap-on Technologies, Inc. to contact Mr. Rogers on numerous occasions by telephone at his last known address in Conway, Arkansas. However, Mr. Rogers had moved away from this location without leaving a forwarding address or telephone number.
3. I was notified that Mr. Rogers had moved to San Jose, California. However, there was no address or telephone number available.
4. I used search engines on the Internet to locate Mr. Rogers' new contact information. However, there was no available information related to Mr. Rogers' new address or telephone number.
5. I was then notified that Mr. Rogers had a web site on the Internet. I located the web site and found that he had listed an e-mail address on the web site. I sent a signature request along with the formal documents, including the declaration and

assignment, to Mr. Rogers at the listed e-mail address on Feb 3, 2003. A copy of the e-mail as sent is attached hereto as Appendix A. Mr. Rogers, however, did not respond to the signature request. _____

6. I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of any application or patent issued thereon.
